ASA is Your Advocate

The American Soybean Association (ASA) is the collective voice of 21,000 U.S. soybean producers that are members of the Association. By making the choice to become a member of ASA you make that collective voice even more powerful.

ASA is your advocate in Washington, D.C. on issues like biodiesel legislation, the Farm Bill, transportation infrastructure and market access. This important policy work is paid for by your voluntary membership in ASA and cannot come from checkoff dollars.

As your number one advocate, ASA testifies before Congress, lobbies Congress and the Administration, provides written comments on key issues, helps develop key legislative language on soybean initiatives and relays information about the importance of ASA issues to the media.

ASA's commitment to policy development begins with the grower-members. They elect state board members and voting delegates who establish the policy goals for ASA.

For the past 90 years, ASA has been working on behalf of its members to build demand, enhance profit opportunities and protect the soybean industry. ASA is proud to represent its soybean grower members, and is looking forward to many more years of success.

MSA Mission Statement:

To improve and advocate for the Michigan soybean industry.
